

# HSHC's Dog Enrichment Team Presents – *Special Deals for Special Dogs*

The Dog Enrichment Team of the Humane Society of Harford County (HSHC) evaluates and works with select dogs to help smooth their transition of being in the shelter to becoming a wonderful pet and companion. They receive additional TLC and training including basic leash walking and obedience and even some tricks.

**We will be showing off our current special friends and available to answer questions about them at HSHC on JULY 21st.**

**These dogs adoption rates will be dropped to \$45 that day (includes basic health exam, all shots, and microchip).**

However, if you are interested in adopting any of these dogs prior to that date costs will be adjusted as well...

So please either inquire about them today – or we hope to see you on July 21st!

**MASON** – You may have seen Mason on the Ma and Pa trail – he has gone there often for walks and many folks now recognize him – he's almost FAMOUS!

Neutered Male

Estimated age 3-4

Other dogs: Ok with some –current girlfriend is Darla

Energy level – Intermittent –rambunctious and then calms down and becomes a loungeur wanting tummy rubs

Cats – not to be in a home with cats

Other Special notes: Though generalized as possible pit bull type, his disposition, unique looks and two-color eyes suggest he is very possibly a somewhat rare breed referred to as the "Dogo Argentino"

## **DARLA**–

Darling Darla is a strikingly GORGEOUS brindle who came to us a bit shy – but she has really opened up and become a true sweetheart and enjoys walks with her friend Mason on Ma & Pa

Spayed Female

Estimated age 3-4

Energy level – Low-moderate

Other dogs: some shyness as first but then has typically made good friends–current boyfriend is Mason

Cats –some initial intros suggest she may ok with them

Other Special notes: Darla likes having a playmate but can also be happy just being an especially loyal companion to someone

**SPARTAN**– – Incredible manners make Spartan a delight to walk and just hang out with – a super sweet lug of a guy. Meet him and his CHARM will win you over!

Neutered Male

Estimated ~4

Other dogs: okay with some

Energy level – Low – Moderate

Cats – may be ok with cats

Other Special notes: a remarkably handsome dog, his size may be a bit intimidating to some- but he knows commands including giving "Paw" and is SO easy walk on a leash

## **PIBBLES**–

Don't judge a book by its cover.. or a Dog by how it looks in a kennel...

Pibbles is perfect example – his picture here is the REAL deal.

Neutered Male

Estimated age ~1-2

Energy level – Moderate

Other dogs – has some select friends – He's a youngster that loves to occasionally play and rough house with other dogs

Other Special notes: Yes Pibbles looks the crazy jumper in his kennel – but can you blame the young boy? Take him out on a leash walk and you'll see he is relaxed and learning commands

## **SNOOP**–

Snoop never understood why his owner had to move and leave him behind – and neither did we. He has appreciated our attention while here, but this MILD MANNERED TYPE so misses a real home...

Neutered Male

Estimated age ~2

Energy level – Low-moderate

Other dogs: Is laid back and so makes friends

Other Special notes: Snoop may hold his feelings back at first but as he gets to know you he has lots of love to show. He would be fine with another dog or enjoy being 'the' family dog

## **WILSON**–

Sometimes good guys do seem to finish last... Handsome with a quirky ear look – We are really not sure why Wilson is still here – he's truly an AWESOME cool chill dog.

Neutered Male

Estimated age 3-4

Energy level – Low-moderate

Other dogs: makes good friends

Other Special notes: Wilson may be one of the bigger looking dogs, but while he is strong there is no mean bone in this boy.
