DONUT DENIM DOG TOY

HAVE SOME OLD JEANS THAT DON’T FIT? CUT THEM UP AND CREATE SOME DOG TOYS! THIS IS GREAT FOR FETCH AND A DURABLE TOY FOR STRONG CHEWERS!

MATERIALS

- 1 cut-off jeans leg (or sleeve)
- 1 denim strip

INSTRUCTIONS

1. Roll the jeans leg into a donut shape like you would for a sock bun donut.
2. Wrap a long denim strip around the donut to secure the donut shape and tie the ends together with an overhand knot (give yourself enough of the strip to tie the knot tight!).

*You can make a softer donut dog toy with a sock! Simply cut the end of the sock so it’s a tube and roll!*

CROWN KNOT DENIM DOG TOY

MATERIALS

- 4 long denim straps
- Pair of needle nose pliers
- Rubber band or hair tie

INSTRUCTIONS

1. Secure the 4 straps of denim together with a rubber band or hair tie.

2. Tie a series of crown knots. You can use the round crown knot or the box knot: the spiral crown knot creates a round dog toy while the box knot creates a square dog toy.

*To hide the tails, push the needle-nose pliers through the knotted denim dog toy, grab the tail and pull it through the toy. Then trim the ends.*
BRAIDED T-SHIRT ROPE TOY

• Pair of scissors

*If you have more than two tees handy, you can use more and make a super colorful version!*

INSTRUCTIONS

1. Start by cutting little 2-3” wide slits at the base of your shirts. After you’ve cut your slits, just rip along the slit and your t-shirt will have the perfect strips of fabric for the next step.

2. Gather your t-shirt strips and tie off one end. Divide your strips into thirds and braid them together.

3. Once you’ve braided down to the other end, tie up the bottom and cut any straggling t-shirt strips.

T-SHIRT CAT TENT

MATERIALS

- 1 medium sized t-shirt
- 2 wire coat hangers
- Tape
- 4 safety pins
- Pair of pliers

INSTRUCTIONS

1. Cut the hooks off the hangers and reinforce the edges of the cardboard with masking tape or duct tape.
2. Using the end of the wire, poke a hole in the 4 corners of the cardboard. Leave about a half inch from the edges of the cardboard.
3. Push one end of the hanger through a hole of the cardboard so that about one inch of the wire is poking through the other side.
4. Use the needle nose pliers to bend the piece of wire that’s poking through the other side so that it is flat against the cardboard (90 degrees) and secure it to the cardboard with a piece of tape.
5. Push the other end of the wire through the opposite side of the cardboard so that the wire forms an arc across the middle of the cardboard.
6. Repeat step 3.
7. Repeat steps 3-6 for the other 2 corners of the cardboard. It should now resemble a tent frame!
8. Secure the top of the frame where the 2 wires connect with a piece of tape.
9. Take your t-shirt and put the tent inside of the shirt, so that the neck hole resembles an opening and the shirt sleeves are towards the cardboard.
